

Directions

- Use the Web of Knowledge resource to locate answers, and fill out the crossword puzzle.
- Write your contact information and UCLA department affiliation below.
- Fold and put in a campus mail box, or drop off your completed puzzle at the Biomedical Library reference desk or Science and Engineering Library reference or circulation desks. All entries must be received by 5 PM on January 15th, 2008.
- Completed entries will be included in the drawing for prizes, including a \$25 gift certificate to ASUCLA stores. You will be contacted via email regarding the outcome of the drawing, on or before January 18th, 2008.

UCLA students, staff, and faculty: Enter in a drawing for a \$25 ASUCLA store gift certificate and other prizes!

Across

- Which database in Web of Knowledge would provide information on biological topics? Fill in the blank: ___ Previews.
- Conduct a search in Web of Science for journal articles by D.J. Spitz on the topic of pop machines. How many articles did you find?
- Do a search in Web of Science for the topic of drought in California. Review the refine results pane. One journal has published 17 articles about this topic—what is the name of this journal?
- This part of the library is where you can ask questions about library resources and get help with research. (2 words)
- This large university in Los Angeles has paid for your access to Web of Science.

Tip: Look for the "help" button in BIOSIS, Zoological Record, or any other database to get information about the database.

Tip: If you can't complete the crossword, ask for help at a UCLA Library reference desk!

Down
