Point of Care Information Resources

**PubMed@UCLA** the National Library of Medicine’s search service provides access to over 20 million citations in the health and life sciences. The database covers approximately 5,400 biomedical journals published in the United States and worldwide. Includes citations and abstracts to articles in medicine, nursing, dentistry, public health and the preclinical sciences (including genetics, immunology, molecular biology, microbiology, etc.). The **Limits** feature allows you to filter your results by date of publication, language, species, gender, etc. Coverage: 1948–present.

**Cochrane Database of Systematic Reviews** the Cochrane Library is a collection of six databases that contain high-quality, independent evidence to inform healthcare decision-making: **Cochrane Database of Systematic Reviews**, Central Register of Controlled Trials, Methodology Register, Abstracts of Reviews of Effects, Health Technology Assessment, and the NHS Economic Evaluation databases.

**Online + PDA**

**Micromedex** provides evidence-based answers to questions about drugs, alternative medicines, emergency conditions, and poisonings/toxic substances.

**DynaMed** is a clinical reference tool created by physicians, offering clinically-organized summaries for nearly 3,200 topics, including drugs, treatments, and conditions.

**Visual Dx** lets clinicians visually validate a diagnosis, look up steps for management and patient care, or build a differential diagnosis for puzzling presentations from their iPhone or iPod Touch.
